

MUD-IN SNAP CHANNEL (AIRELIGHT™ LINEAR ES 0.5)

MUD-IN SNAP CHANNEL (AIRELIGHT™ LINEAR ES 0.5)

DESCRIPTION

The Mud-In Snap Channel for the Airelight™ Linear ES 0.5 provides an optimal solution for lighting applications in drywall or other embedding materials. Constructed of anodized aluminum, the Mud-In Snap Channel is low profile and light weight providing ultimate flexibility for the lighting designer. Once mounted into the selected building material, the attachment clips on the Airelight™ ES model simply snap into the channel, providing easy integration and a secure attachment.

Applications: Lighting in drywall for Office, Residential, Industrial, Retail, etc.
